

Match Light Sculptures

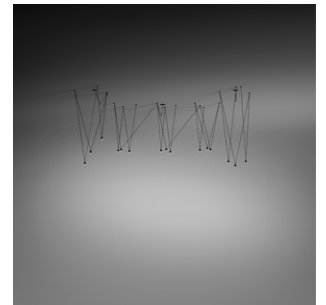

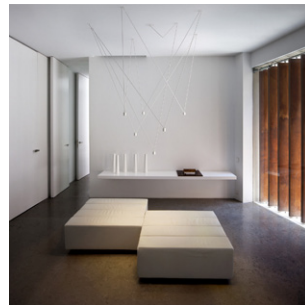

Looking for uniqueness? Time to meet your MATCH!

Introducing **Vibia's** new lighting concept, based on the principle of co-creation.

Much more than a light fixture, **MATCH** was born from an idea: to fabricate light compositions with a certain plastic character and a chaotic harmony, enabling professionals to become involved in the configuration process.

This captivating piece, designed by **Jordi Vilardell & Meritxell Vidal** for **Vibia**, represents the evolution of lighting in terms of design, technology and the opportunities of the online world.

On www.vibia.com, interior designers, architects and lighting designers can compose different arrangements of **MATCH** (2D & 3D simulations) and visualize lighting scenes, making this innovative pendant lamp part of their own design concept.

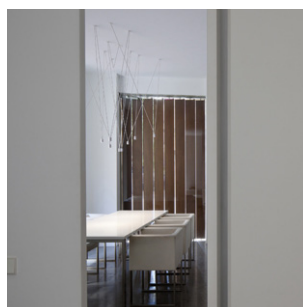

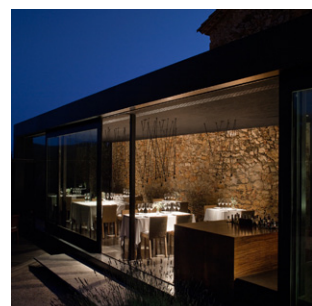

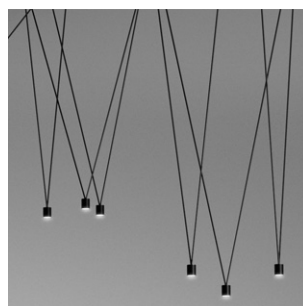

As much a sculpture as a lamp, **MATCH** allows professionals to create structures arranged chaotically and adapted to fit into the room and the space available.

MATCH is about simple, functional fixtures that transform into a 'customizable chandelier'.

The result is infinite artistic configurations based on thin rods of steel and LED light terminals, forming a light sculpture that illuminates central themes of the decoration.

Choose between matt graphite lacquer & matt white lacquer finishes with aluminum diffuser. Design your **MATCH** with Vibia.com

Brand: Vibia

Family: Match

Designer: Jordi Vilardell & Meritxell Vidal

Finishes: Matt white lacquer and matt graphite lacquer

Materials: Aluminium diffuser

Installation: Built-in

Light Source: LED 3W 700mA (depends on the composition)

About Vibia

Founded in 1987, VIBIA is a design-oriented lighting manufacturer based in Barcelona. The company operates in more than 60 countries around the world, including exclusive distributors and a subsidiary in New Jersey, USA.

VIBIA's mission is to provide the right solution in terms of light, inspiring the creative abilities and good taste of both, consumers and professionals, with a unique range of lighting products, designed in collaboration with well renowned designers and architects.
